WHAT TO EXPECT

Seminar Overview

Ownership transition is often one of the least considered aspects of managing a firm, yet it is the most critical in terms of realizing one's personal retirement goals and preserving the business for the next generation. Architecture, engineering and design firm owners who fail to plan properly on ownership transition, are leaving their firm exposed to the potential for undesirable outcomes – including significant loss of firm value, brand equity deterioration and loss of market position.

A smooth and effective ownership transition plan requires advance planning and regular reviews. This seminar is designed to provide objective guidance for the design professional involved in ownership transition. We will comprehensively analyze and present the strategies used in ownership transition and will explore in detail the proper methodologies for valuing a design firm.

This seminar also offers in-depth coverage of the use of Employee Stock Ownership Plans, recapitalizations, leveraged buy-outs, non-statutory deferred compensation plans - and more, to achieve your goals in ownership transition planning.

At this seminar, you will learn about:

- » Understanding Your Firm's Financial Statements and Financial Ratios
- » Methods of Valuing Your Firm
- » Techniques for Transferring Ownership
- » Income and Estate Tax Considerations
- » Ownership Succession and Transfer of Control
- » Funding the Transition Plan
- » Choosing the Proper Buy-Sell Agreement
- » Mergers and Acquisitions

BONUS:

- » You will receive, in advance, an in-depth actual case study which will be reviewed in detail at the seminar.
- » You will receive a glossary of financial terms and ratios to be used in valuing a design firm.
- » You will be presented with factual examples which will draw the techniques of transfer, funding and valuation into true perspective.
- » You will study the differing viewpoints of a purchasing associate from the owner selling his or her interest.
- » You will be provided with additional written material that elaborates on the lecture presentation.
